

The Gillingham Digital Archive is organised under the following headings. The Archive is still being built, so some sections are more complete than others. To see the items which are available you need to request the GDA catalogue or the part of it which interests you. You can do this by contacting us at office@gillinghammuseum.co.uk.

Individual items for personal use can be supplied free of charge as attachments or downloads. Some longer items, or orders for multiple items, will be subject to the Museum scale of charges.

The Museum is run by volunteers, and so donations for the use of this service are welcomed. You can donate at any time by using the DONATE button on the website.
